

PSR100DL

Release Notes

Version 1.02 Release (April 27, 2010)

- **Added support for the GRECOM PSR-200U Base scanner. Since the format of the data from the PSR-200U is not compatible with the PSR-100, PSR-200, PRO-404 or PRO-405, the file extension when downloading data from the PSR-200U will be set to .psr200u.**
- **Added support for the RadioShack PRO-405 Base Scanner. Since the data format is not compatible with the PSR-100, PSR-200, or PRO-404, the file extension for files downloaded from the PRO-405 will be .pro405.**
- **Note that there is no provision in PSR100DL to perform any conversion between file formats. A file downloaded from a PSR-200U can only be uploaded to a PSR-200U. A file downloaded from a PRO-405 can only be uploaded to a PRO-405.**

Version 1.01 Release (February 28, 2009)

- **Changed software protection package.**
- **The serial port selector will now only show existing serial ports.**

Version 1.00 Release (April 30, 2008)

PSR100DL is a backup and restore utility for the GRE PSR-100 and PSR-200 scanners. This program does not support editing of the data in the file, however the saved files are compatible with the PSREdit100 program.

This software is free software. Support for this software will be via the PSREdit or PSREdit100 Yahoo groups.

I hope you enjoy this software.
